Attention Regulatory Commission :

POSTAL REGULATORY  
COMMISSION

I am writing to comment on the Post Office functioning since Mr. DeJoy has been in charge.

I do not believe that the changes he has made and wants to make in the future are in the best interests of the Country and its Mail Service.

The financial situation was due to the laws that required the payment in advance (funding) of health care and other.

Improving mail delivery by removing Sorting Machines ,Drop Boxes and cutting staff reducing hours ?  
How does that increase service?

Mr. DeJoy wants to privatize the Postal Service!  
USPS should be a run by the Government.

Mr. DeJoy is not the person for this job.  
He needs to be terminated before more damage is done.

Sincerely

  
Nancy Rea ( CA 90035)
